COLLECTION

"Every idea comes from the light and the sea as life does..." "From the ephemeral beauty of a season to an everlasting piece to keep this moment of a dream in a permanent frame."
"Observing the plastic objects brought by the sea, like artificial shells, it inspired me to create a unique collection made of recycled plastics from the island." "IBIZA is an emotional state of mind."

LOVE

COLLECTION

This collection is designed by Eugeni Quitllet and inspired by the concept of love, a feeling that involves body and soul, invisible to the human eye, but a wonderful embellisher of everything that surrounds us. The injection manufacturing technique allows each piece to have its own personality, through simple and curved silhouettes, which fit in an organic and natural way; this collection is suitable for both indoor and exterior spaces.

VELA

COLLECTION

VELA, this extensive outdoor collection aims to offer the comfort and the quality of interior furniture without losing its original qualities. VELA is a modulate system with an elementary prismatic geometry that bases its singularity in the balance of its proportions. Their precise volumes create the illusion of hovering off the floor, and when they are illuminated they are transformed into floating architectures.

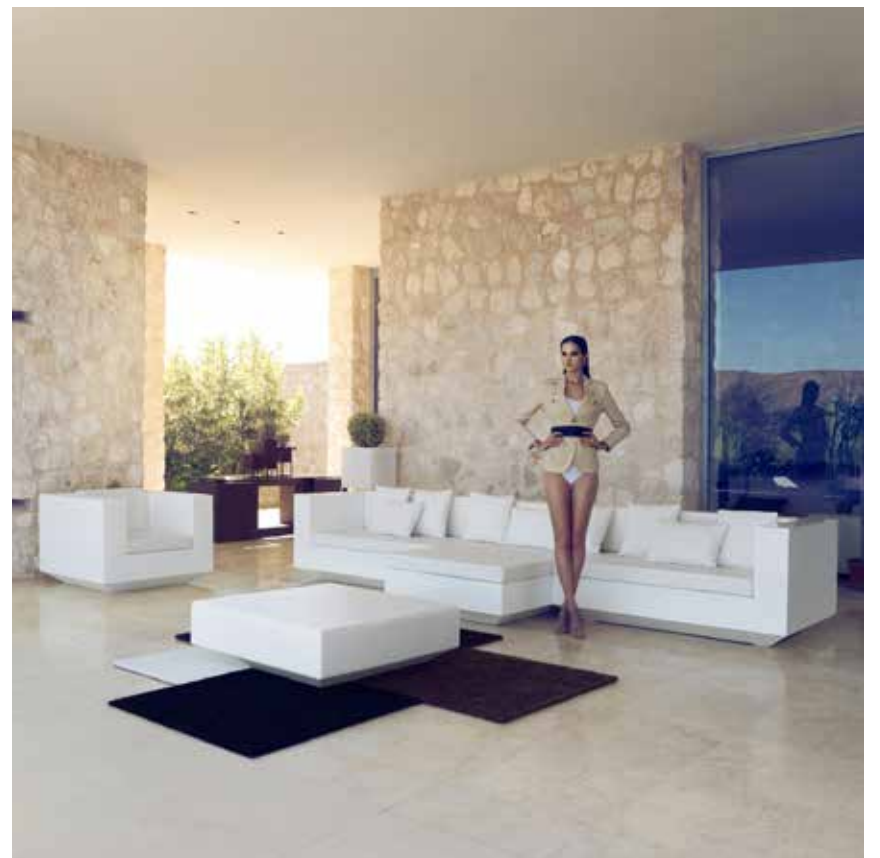

VELA

PIXEL COLLECTION

It is inspired by the small elements of colour that make up an image, looking to connect the piece with the numerous possible outcomes that are generated as a result of how it is arranged. The PIXEL sofa is composed of three independent modules that allow you to create countless shapes; from linear sofas or chaise lounges, to corners or even a daybed. PIXEL's main characteristic is its low-profile seating, designed for a more intimate use that ties the piece in with chill-out zones.

SUNBRELLA

FABRICS

Outdoor furniture covered in Sunbrella fabrics allows you to create elegant coordinating designs, adding a deeper level of sophistication with luxurious textures and colors.

UV AND FADE RESISTANT

Traditional dyeing processes only leave colour on the surface of fiber, so they easily fade. Sunbrella fibers are saturated to the core with highly UV-stable pigments, making Sunbrella fabrics resistant to fading and the degrading effects of sunlight.

MOULD AND MILDEW RESISTANT

All Sunbrella fabrics are engineered to resist mould and mildew. Should exposure to dirt and debris cause mould and mildew to occur, all Sunbrella fabrics can be easily and safely cleaned with bleach.

BLEACH CLEANABLE

Because colour goes to the core of Sunbrella fibers, Sunbrella fabrics can be cleaned with solvents such as bleach without losing colour.
